

April 21, 2003

I called a law firm Called Meroni and Meroni to make an appointment to have a meeting about my patent for the wireless/cordless stethoscope. I spoke to Derek Pressley and he gave me some basic info. I had been in to speak with him in March but he only vaguely remember talking with me. I left it at that since I feared that he would charge me again and call the first meeting the free 1/2 hour consultation. *PR 4-21-03*

Drove to Basking Ridge to Meroni & Meroni office and showed them the W/S stethoscope - Seemed to be very impressed and expressed feelings that there could be many possibilities for its use. They felt that its introduction to specific clients ~~to~~ would be at a timely advantage.
